Re: Entrada Corporation, Goodner Fed. #1  
1723/N; 1980/W, Sec. 3-18N-3W  
Sandoval County, New Mexico

Gentlemen:

The above well was drilled in 1958 to a total depth of 1304 feet. Seven inch casing was cemented at 1190 feet with 200 sacks of cement. We received the above information from sundry notices and from a federal well record form which was filed with this office.

We do not have in our files a copy of the plug and abandonment notice. Will you please send us a copy of your notice so that we can duplicate it and return the form to you? If the well has not been plugged and abandoned, will you please send us a copy of your plugging demand letter?

Yours very truly,

*Erery C. Arnold*
