(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

September 29, 19 57  
Federal-Drift  
Well No. 1 is located 660 ft. from S line and 1980 ft. from W line of sec. 3  
SW 1/4 of SW 1/4 of Sec. 3 T2 North 7 West N.M.P.M.  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Alameda Sandoval New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 670 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This well was reached a total depth of 557 1/2 ft., and in our opinion is barren of oil or gas production. We propose to plug and abandon the hole after verbal clearance from the District Engineer. We will plug the well as follows:

|           |                |           |                          |
|-----------|----------------|-----------|--------------------------|
| Heavy mud | 557 1/2 to 500 | Cement    | 500 to 300               |
| Cement    | 500 to 450     | Heavy mud | 300 to 200               |
| Heavy mud | 450 to 400     | Cement    | 200 to 100               |
| Cement    | 400 to 350     | Heavy mud | 100 to 100               |
| Heavy mud | 350 to 300     | Cement    | 100 to Surface 1/2 meter |
| Cement    | 300 to 250     |           |                          |
| Heavy mud | 250 to 200     |           |                          |
| Cement    | 200 to 100     |           |                          |
| Heavy mud | 100 to 0       |           |                          |

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
