Dear Sir:

Reference is made to your letter of August 15, 1958 requesting information on a well drilled in the NW $\frac{1}{4}$  Section 6-21N-4W.

Our records indicate that a well was spudded on this location by Brinkerhoff Drilling Company, 807 Denver Club Building, Denver Colorado, on July 8, 1958. This well was drilled to a total depth of 6382 feet and penetrated the Dakota Sandstone formation. This well was plugged and abandoned on July 30, 1958 and the well record as filed with this office does not indicate any oil or gas was encountered.

If I can be of any further service in this matter, please contact me.

Yours very truly

Emery C. Arnold  
Supervisor, Dist. #3
