LOCATE WELL CORRECTLY

Company Caswell Silver Address 323 Simmes Bldg., Albuquerque, N. M.

Lessor or Tract Lease Contract 74 Field Wildcat State New Mexico

Well No. 2 Sec. 10 T. 22 N. R. 3 E. Meridian N. M. P. M. County Sandoval

Location 540 ft. ~~N~~ of N Line and 990 ft. ~~E~~ of E Line of Sec. 10 Elevation 2800 A. S. 2540 G. L.
(Derrick floor relative to sea level)

The information given herewith is a complete and correct record of the well and all work done thereon so far as can be determined from all available records.

Signed Charles F. Kline

Date March 10, 1956 Title Operator

The summary on this page is for the condition of the well at above date.

Commenced drilling ~~February 28~~, 19-~~56~~ Finished drilling ~~March 5~~, 19-~~56~~

OIL OR GAS SANDS OR ZONES

(Denote gas by G)

No. 1, from None to No. 4, from to

No. 2, from _____ to _____ No. 5, from _____ to _____

No. 3, from _____ to _____ No. 6, from _____ to _____

IMPORTANT WATER SANDS

No. 1, from None to _____ No. 3, from _____ to _____

No. 2, from _____ to _____ No. 4, from _____ to _____

CASING RECORD

Size casing	Weight per foot	Threads per inch	Make	Amount	Kind of shoe	Cut and pulled from	Perforated		Purpose
							From—	To—	
8 5/8	25	4V	J55	52 ft.	none				Surface

MUDDING AND CEMENTING RECORD

Size casing	Where set	Number sacks of cement	Method used	Mud gravity	Amount of mud used
5 7/8	82' below	G.L. 90 reg.	circulated		
7 7/8	open hole:				
	2802-2450				
	230-83	neat cement plug	circulated		

PLUGS AND ADAPTERS

Heaving plug—Material _____ Length _____ Depth set _____

Adapters—Material _____ Size _____

SHOOTING RECORD

Size	Shell used	Explosive used	Quantity	Date	Depth shot	Depth cleaned out
None						

TOOLS USED

Rotary tools were used from _____ feet to _____ feet, and from _____ feet to _____ feet

Cable tools were used from _____ feet to _____ feet, and from _____ feet to _____ feet.

DATES

-----, 19----- Put to producing -----, 19-----

The production for the first 24 hours was barrels of fluid of which% was oil;% emulsion;% water; and% sediment. Gravity, °Bé.

If gas well, cu. ft. per 24 hours _____ Gallons gasoline per 1,000 cu. ft. of gas _____

Rock pressure lbs per sq in

Commenced drilling _____
Finished drilling _____

OIL OR GAS SANDS OR ZONES _____

Casing as marker. _____

Concrete form 2 feet square and 1 foot high poured over surface _____

Pressure - 0. Hole was dry and plugged back. _____

mud. Initial flow pressure - 0. Final flow pressure - 0. Shut in _____

Tool open one hour - water showed in 6 minutes, recovered 8 feet _____

Drill stem test from 2498 - 2602 in open hole. _____

Well was drilled to total depth with no difficulty. _____

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.

THE ENVIRONMENT

1. The first part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

2. The second part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

3. The third part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

4. The fourth part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

5. The fifth part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

6. The sixth part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

7. The seventh part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

8. The eighth part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

9. The ninth part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

10. The tenth part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

The number on this page is for the completion of the well at above date.

Drill stem test from 2498 - 2602 in open hole.
Tool open one hour - west flow, died in 6 minutes, recovered 8 feet mud. Initial flow pressure - 0, final flow pressure - 0, shut in pressure - 0. Hole was dry and plugged back.
Concrete form 2 feet square and 1 foot high poured over surface casing as marker.
Oil on gas sands or zones

It all was drilled to total depth with no difficulty.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked," or left in the well, give its size and location. If the well has been abandoned, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
