Dear Doug:

Received your letter regarding your Stromberg #6 well located in Section 34-23N-3W.

According to our records this well is located on Jicarilla Indian land and your plugging plan should be approved by the U.S.G.S.

We do not at present have any Federal Report forms to send you but I presume that you probably have a supply. The U.S.G.S. Office in Farmington will send us two copies of your plugging plan and two copies of your report on plugging after the well has been abandoned.

Yours very truly
