The elevation of the derrick floor above sea level is 7338 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This well was originally drilled by H.J. Florence Co. on the Stearns #2. El Paso Natural Gas Company has purchased the well with the name change to EPN Stearns #2. EPN will be the operator.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
