Dear Mr. Gumz:

We have never received a tabulation of deviation surveys for the above well as required by our rules. You have also neglected to show on the well record forms submitted to the United States Geological Survey any formation tops. We are therefore returning our two copies of this form for this information. Please return these two copies with the deviation surveys. We will be unable to approve form C-110 until the above information is received.

If we can help you in any way, please let us know.
