Gentlemen:

Your #1 Chapman well in N-20-23N-6W, Undesignated Pool, Sandoval County, was granted an initial allowable effective August 1, 1959. Oil Conservation Commission rules require that a gas-oil ratio test be conducted within 30 to 60 days after completion.

This well does not presently have an assigned allowable because the gas-oil ratio test is delinquent. Will you please submit the test immediately in order to avoid further loss of allowable.

Yours very truly
