13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Our intent is to bring this well back to production as soon as possible. Rigs in the Jicarilla area have been hard to obtain. We have been contacting Triple P Well Service and Professional Well Service on a regular basis. As soon as one is available, this well will be brought into production.

* COA - well needs to be returned to production within 5 p/1000 or be shut in.
