October 25, 19 60

Well No. 1 Bennett located 660 ft. from XX line and 660 ft. from XX line of sec. 17

SW1/4SW1/4 16 N 3 W N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Sandoval New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6100 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The above well was plugged back to 900 feet with location clay. The 530 feet of 8-5/8 inch pipe was left in the hole and the well was completed as a fresh water well flowing approximately one barrel of water a minute. There was no show of oil and gas at any depth to the total depth of 1830 feet.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
