Jicarilla 55 #3, SE4 Sec. 35 T23N R3W

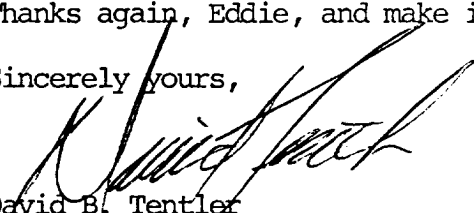

Dear Mr. Marcum:

Relative to our telephone conversation of April 6, wherein I requested the reconnecting of the above captioned gas meter.

We have for some reason or another been able to produce gas from the above captioned well. The well was temporarily disconnected several months ago for what I presume to be lack of production. We are at this time officially requesting that the well be reconnected with a quarter inch or .250 orifice plate. Your attention to this matter and your cooperation is greatly appreciated.

Thanks again, Eddie, and make it a good day.

Sincerely yours,

David B. Tentler
Owner/Operator
