From

Luanne Hisel

To Danna Lindsay
Petro-Lewis Corp.

Re: Federal Media #6 (C-104 for transporter change)

C-104 on the above well is unapprovable. This well has been temporarily abandoned (per our records) since 1972 and reserved for future conversion to water well. The Non-Standard Location has never been applied for through Santa Fe for approval, and no previous C-104 has been filed for new well completion.

If you have any questions, please call.

Sincerely,

Luanne
