17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Subject well was spudded 7-1-69 and temporarily abandoned in July, 1969 for lack of commercial production. The well was temporarily abandoned and held for possible use in the secondary recovery program. The well is no longer needed and Petro-Lewis now proposes to plug the well. Petro-Lewis proposes to plug the well by setting -

1) a drillable bridge plug topped by a five sack cement plug above the Entrada

2) a 35 sack surface plug and dry hole marker.

Plugging operations will commence as soon as possible after all necessary approvals are obtained.

18. I hereby certify that the foregoing is true and correct
