Re: Authorization To Transport  
Tesoro Petroleum Corp., Quinella #1  
D-31-23N-6W

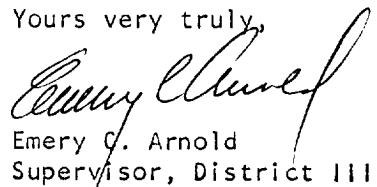

Gentlemen,

Our records indicate the above well was completed January 2, 1972. We also note that Form C-115 filed by your company indicates that 87 barrels of oil was produced in January, 1972, although it does not indicate any oil was run to the transporter.

We have never received Form C-104 "Request For Allowable and Certificate to Transport Oil" for this well nor have we received a tabulation of deviation survey as requested by Commission rules.

Will you please submit the above information so that an allowable may be assigned to this well.

Yours very truly,

  
Emery C. Arnold  
Supervisor, District III
