

DEVELOPMENT PLAN
JICARILLA TRIBAL 358 NO. 8

The proposed location is in an area of previous drilling development. Only 0.8 mile of road construction is needed. The road will follow a trail through timber and can be built with no or very little damage to trees. The location will not be in timber. Approval for surface work will be obtained from the Jicarilla Apache Tribe.

There are no camps or airstrips nearby. Arrangements have been made to truck water from Largo Canyon, a distance of 39.5 miles. Upon completion of the well the location will be cleaned, leveled and the reserve pits backfilled. The attached sketches show in detail the location of the proposed well.
