

DEVELOPMENT PLAN
JICARILLA TRIBAL 358 NO. 9

The proposed location is in an area of previous drilling development. Only 0.8 mile of road construction is needed. The road will be through a sagebrush covered area. The location will be on the edge of a clearing and a few trees will have to be cleared. Approval for surface work will be obtained from the Jicarilla Apache Tribe.

There are no camps or airstrips nearby. Arrangements have been made to truck water from Largo Canyon, a distance of 40 miles. Upon completion of the well the location will be cleaned, leveled and the reserve pits backfilled. The attached sketches show in detail the location of the proposed well.
