Re: Application for permit to
drill the Noel Reynolds No.
1 Torreon SW NE SEC 21
T18NR3W, San Luis - Mesa
Verde Field, Sandoval County,
New Mexico Lease No. NM 9034

Dear Mr. Long;

Enclosed are plats showing existing roads, pipelines, flowlines, etc. pertaining to the above captioned well location. Additional required data is set forth below.

Water for drilling operations will be obtained from lease produced water obtained from existing oil wells which produce oil and water.

Waste disposal will be buried in the burn pit, latrine or reserve pit as needed.

No camp or airstrips is associated with the drilling of this well. Sage brush and juniper are the dominate flora. Only sage brush will be removed at the drilling site. Upon completion or abandonment of the well, the location will be cleaned and leveled and if applicable, a dry hole marker will be erected.

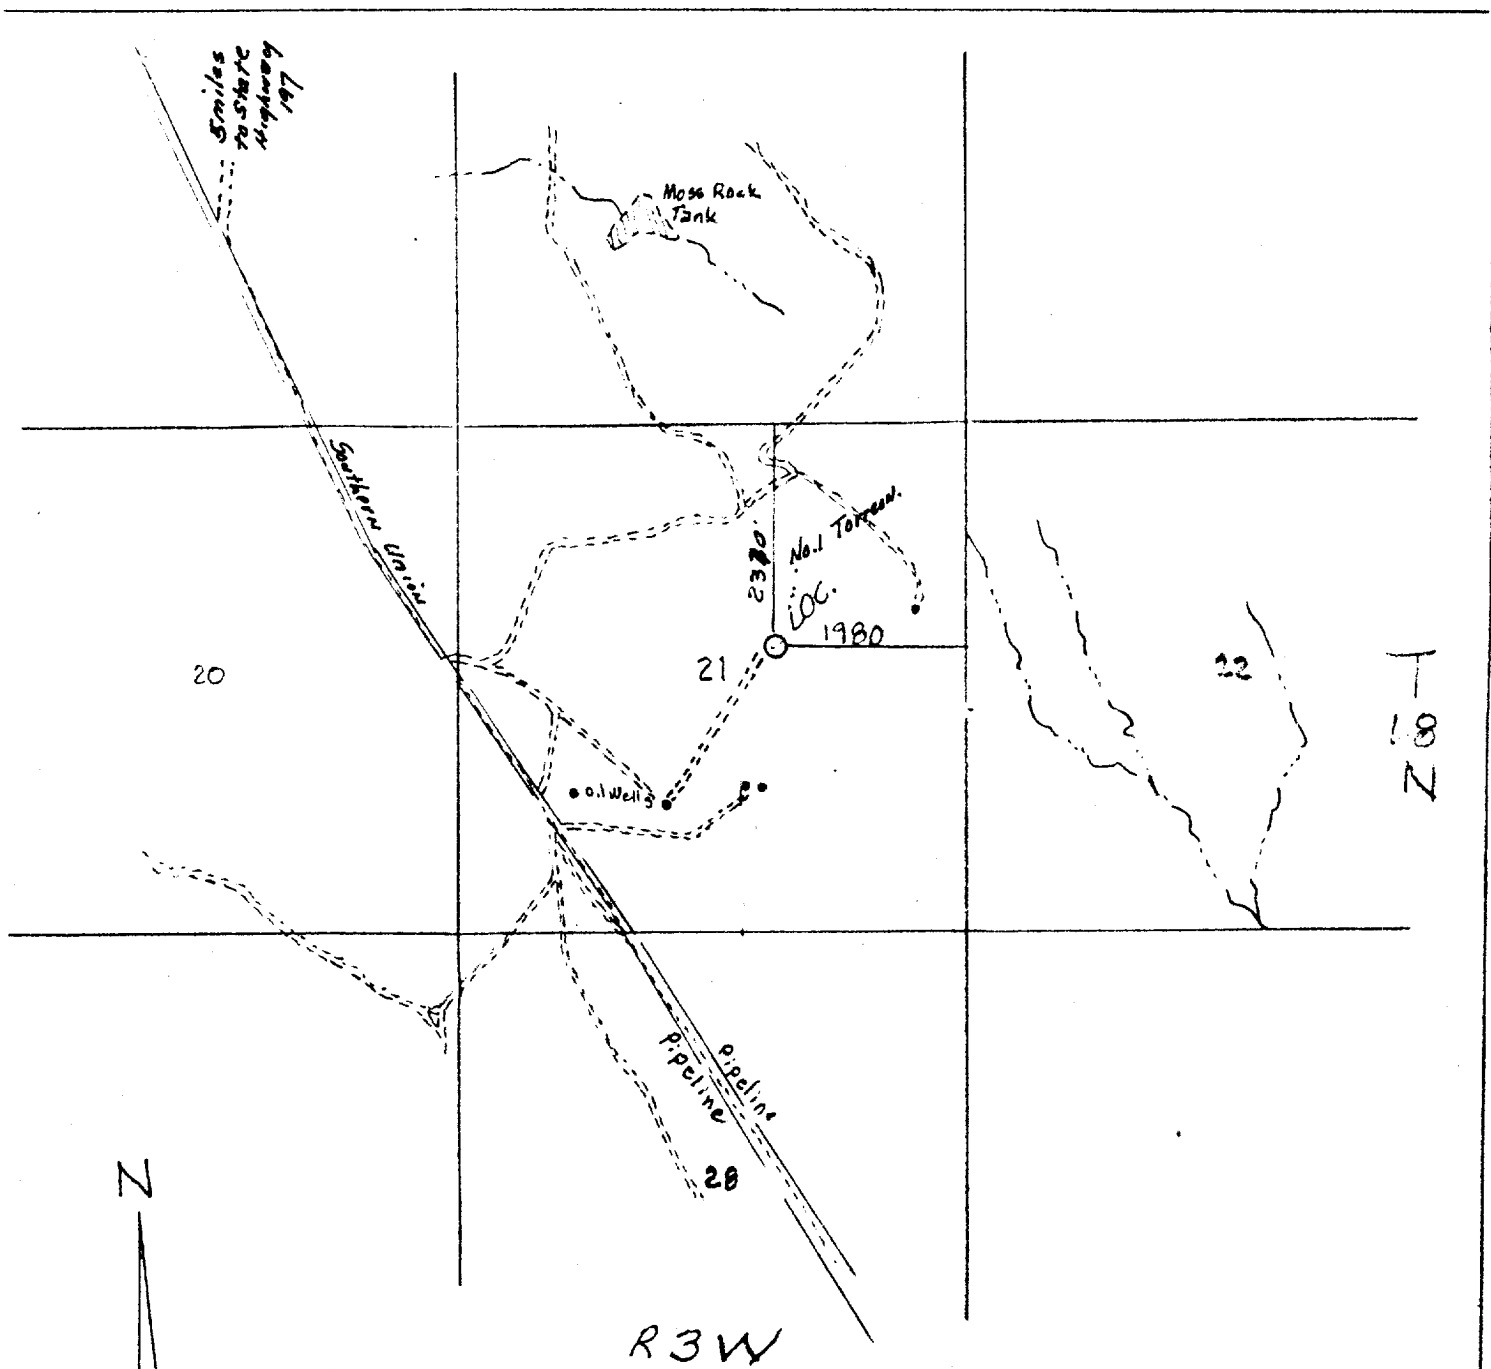

Very truly yours,

Noel Reynolds
