CERTIFIED MAIL
RETURN RECEIPT REQUESTED

May 30, 1978

Michael P. Grace
P. O. Box 1418
Carlsbad, NM 88220

Dear Mr. Grace:

The last report we received for your No. 1 South Wash well, located in the NE¼ sec. 36, T. 21 N., R. 2 W., Sandoval County, New Mexico, on Federal Lease N.M. 0510043, was dated February 15, 1975, and indicated that drilling from total depth of 820 feet would resume on February 17, 1975.

On March 10, 1975, I granted oral approval to install 4½ inch casing to total depth of 900 feet to test an interval from 810 feet to 850 feet. We have received no Sundry Report indicating that this work has been done.

You are hereby ordered to file delinquent reports. This will include five copies of Sundry Report indicating the work and result of tests performed subsequent to the report of February 15, 1975, four copies of Completion Report, (Form 9-330) and two copies of any logs run of the well. You are also ordered to contact this office regarding plugging of the well.

Sincerely yours,

(Orig. Sgd.) J. W. LONG

Jerry W. Long
District Engineer
