PROPOSED CASING AND CEMENT PROGRAM

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	SETTING DEPTH	SACKS OF CEMENT	EST. TOP
12	8 5/8	24	100'	100	Circ.
7 7/8	4 1/2	9.50	5000'	400	1600'

It is proposed to set 8 5/8 surface casing at 100' and cement with 100 sacks of regular cement, circulate cement to surface. Drill a 7 7/8 hole to approx 5000' to test the Gallup formation. Run logs and if production is indicated, run 4 1/2 production casing and cement as required. Perforate and fracture treat in a completion attempt. Run 2 3/8 tubing for flowing or pumping production. If non commercial, plug and abandon in accordance with regulatory O.C.C. plugging instructions, install snubber and restore surface.

Note: Subject well was spud on 3-15-1975 by verbal authority granted.

Re: Extention of State of New Mexico Lease K-4844 by the drilling of a well #1 Dana State, 1710' FNL, 1710' FEL, a proposed 4700' Gallup test in Section 16, T22N, R7W, Sandoval, N. M.

Dear Mr. Arnold:

The purpose of this letter is to confirm our telephone conversation of this morning.

In that conversation, I requested verbal permission to spud the above referenced well. Said well in order to extend the referenced lease must spud prior to midnight on March 16, 1975.

Said permission being granted by you with the understanding by me that proper bonding be approved by Mr. Waldo Alarid of your Santa Fe office.

Spud will be effected in the name of Claude C. Kennedy or Basin Fuels, Incorporated dependent upon which bond is first approved. The Basin bond should be in the mail to Santa Fe today. My personal bond is being handled by Woods Insurance, Mr. Gordon Woods, Farmington, New Mexico. Yesterday, I executed a rider requesting that my bond be transfered from the abandon location #1 Marie Gee, Section 19, T15N, R9W, McKinley County, New Mexico to the above referenced well. This rider and request should have gone out in the mail yesterday to the attention of Mr. Alarid.

With your permission, the required Application to Drill and plats will be furnished within 10 days so as to correctly reflect the drilling party.

My present plans dependent upon weather in the area, call for spud on either Saturday or Sunday, it being understood by me that proper bonding is required and approved prior to spud of the above referenced well.

Thanking you for your assistance and consideration in this matter, I remain

Very truly yours,

Claude C. Kennedy

Re: Claude C. Kennedy #1 Dana State
SWNE, Sec. 16, T22N, R7W
Sandoval County, New Mexico State of New Mexico Lease K-4844

Dear Mr. Arnold:

The subject well was spudded under verbal authority as granted and covered in my letter dated March 11, 1975.

As a matter of record, I am furnishing you with the attached report.

It was my intention to file the "Application to Drill" today, but a search of my files produced no proper State forms. I realize that the attached report is not on proper form, but in keeping with a "Moya Type" oilfield operation I was forced to use what was available.

Could you please forward me with enough forms to file "Application" for the subject well. Next time I am in Aztec, I will pick up a supply.

Plats to cover the subject well are being furnished at this time.

Thanking you, I remain

Very truly yours,

Claude C. Kennedy
