DEVELOPMENT PLAN FOR SURFACE USE

FILON EXPLORATION CORPORATION

NAVAJO 22A WELL NO. 1

330' FNL, 1650' FWL, SEC. 22 T18N, R4W

SANDOVAL COUNTY, NEW MEXICO

1. Existing Roads

The main road in the area, New Mexico State Highway 197, passes approximately 300' south of the wellsite.

2. Planned Access Road

Short road planned from the highway

3. Location of Existing Wells

660' FNL, 1980' FWL, Section 22 T18N, R4W PXA (Shallow well).

4. Lateral Roads

None

5. Location of Tank Batteries and Flowlines

Will be initially located on the drill pad approximately 150 feet from the well if production is encountered.

6. Water Supply

Water will be hauled to the well site from a water well located in the Media Dome Field approximately 8 miles east of the proposed location.
