

STATEMENT ON DEVIATION

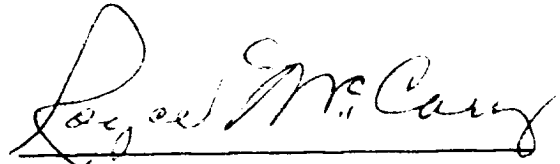

RUSTY NAVAJO 1-X

Mr. Gene Burson of Farmington, New Mexico spudded this well on 1-31-76 and reached total depth on 2-8-76. Total depth was 1931'.

Due to Mr. Burson's inexperience in drilling, NO DEVIATION SURVEY WAS RUN.

The partner of this firm Mr. Langford was killed while the rig ~~was~~ moving to location, and Mr. Burson took over the operations.

Mr. Burson had never drilled a well previous to the Rusty Navajo # 1, and buried his drill pipe at 800' on the first well, moved north 10', and drilled the Rusty Navajo 1-X.

A handwritten signature in cursive script, reading "Royce McCary", written over a horizontal line.

Royce McCary
