Gentlemen:

I have examined the application dated 2-17-76
for the Chase Oil Co. Gulf Federal #3 G-13-22N-7W
Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

Approve

Yours very truly,

AR Kendrick

CHACE OIL COMPANY, INC.

313 Washington S.E.

Albuquerque, New Mexico 87108

(505) 266-5562

February 17, 1976

Mr. Joe D. Ramey, Director
New Mexico Oil & Gas Commission
P.O. Box 2088
Santa Fe, New Mexico

Dear Sir:

We would like to request permission for a non-standard location for a shallow gas well in the N.E. $\frac{1}{4}$ of section 13, T22N-R7W, Sandoval County, Texas.

This request is made due to the topography of the area. A standard location would have been on the side of a cliff, and to move further east would have dropped the location into some very badlands, necessitating many miles of road building. Also along the top of the cliff was what the archaeologist called litho-graphic scatterings, and requested that we move west some 50 feet.

The well as staked lies 1650' from the north line and 1955' from the east line, or 145' west of a standard location. This does not effect any offset operator as the nearest quarter section line is a Chace lease. This lease was acquired as a farm-out from Gulf Oil.

Enclosed are location, topography and lease plats showing the details of this request.

Gulf Oil Company owns the S.E. $\frac{1}{4}$ of Section 13, T22N-R7W but this location is 800' from this quarter section line.

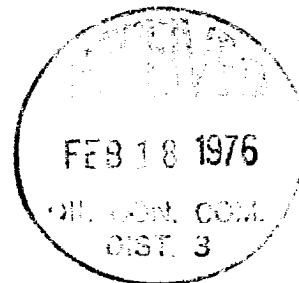

Please advise us if you need any additional data.

Sincerely,

Royce McCary

Mr. Joe C. Ramsey, Director
New Mexico Oil & Gas Commission
P.O. Box 10888
Santa Fe, New Mexico

Dear Sir:

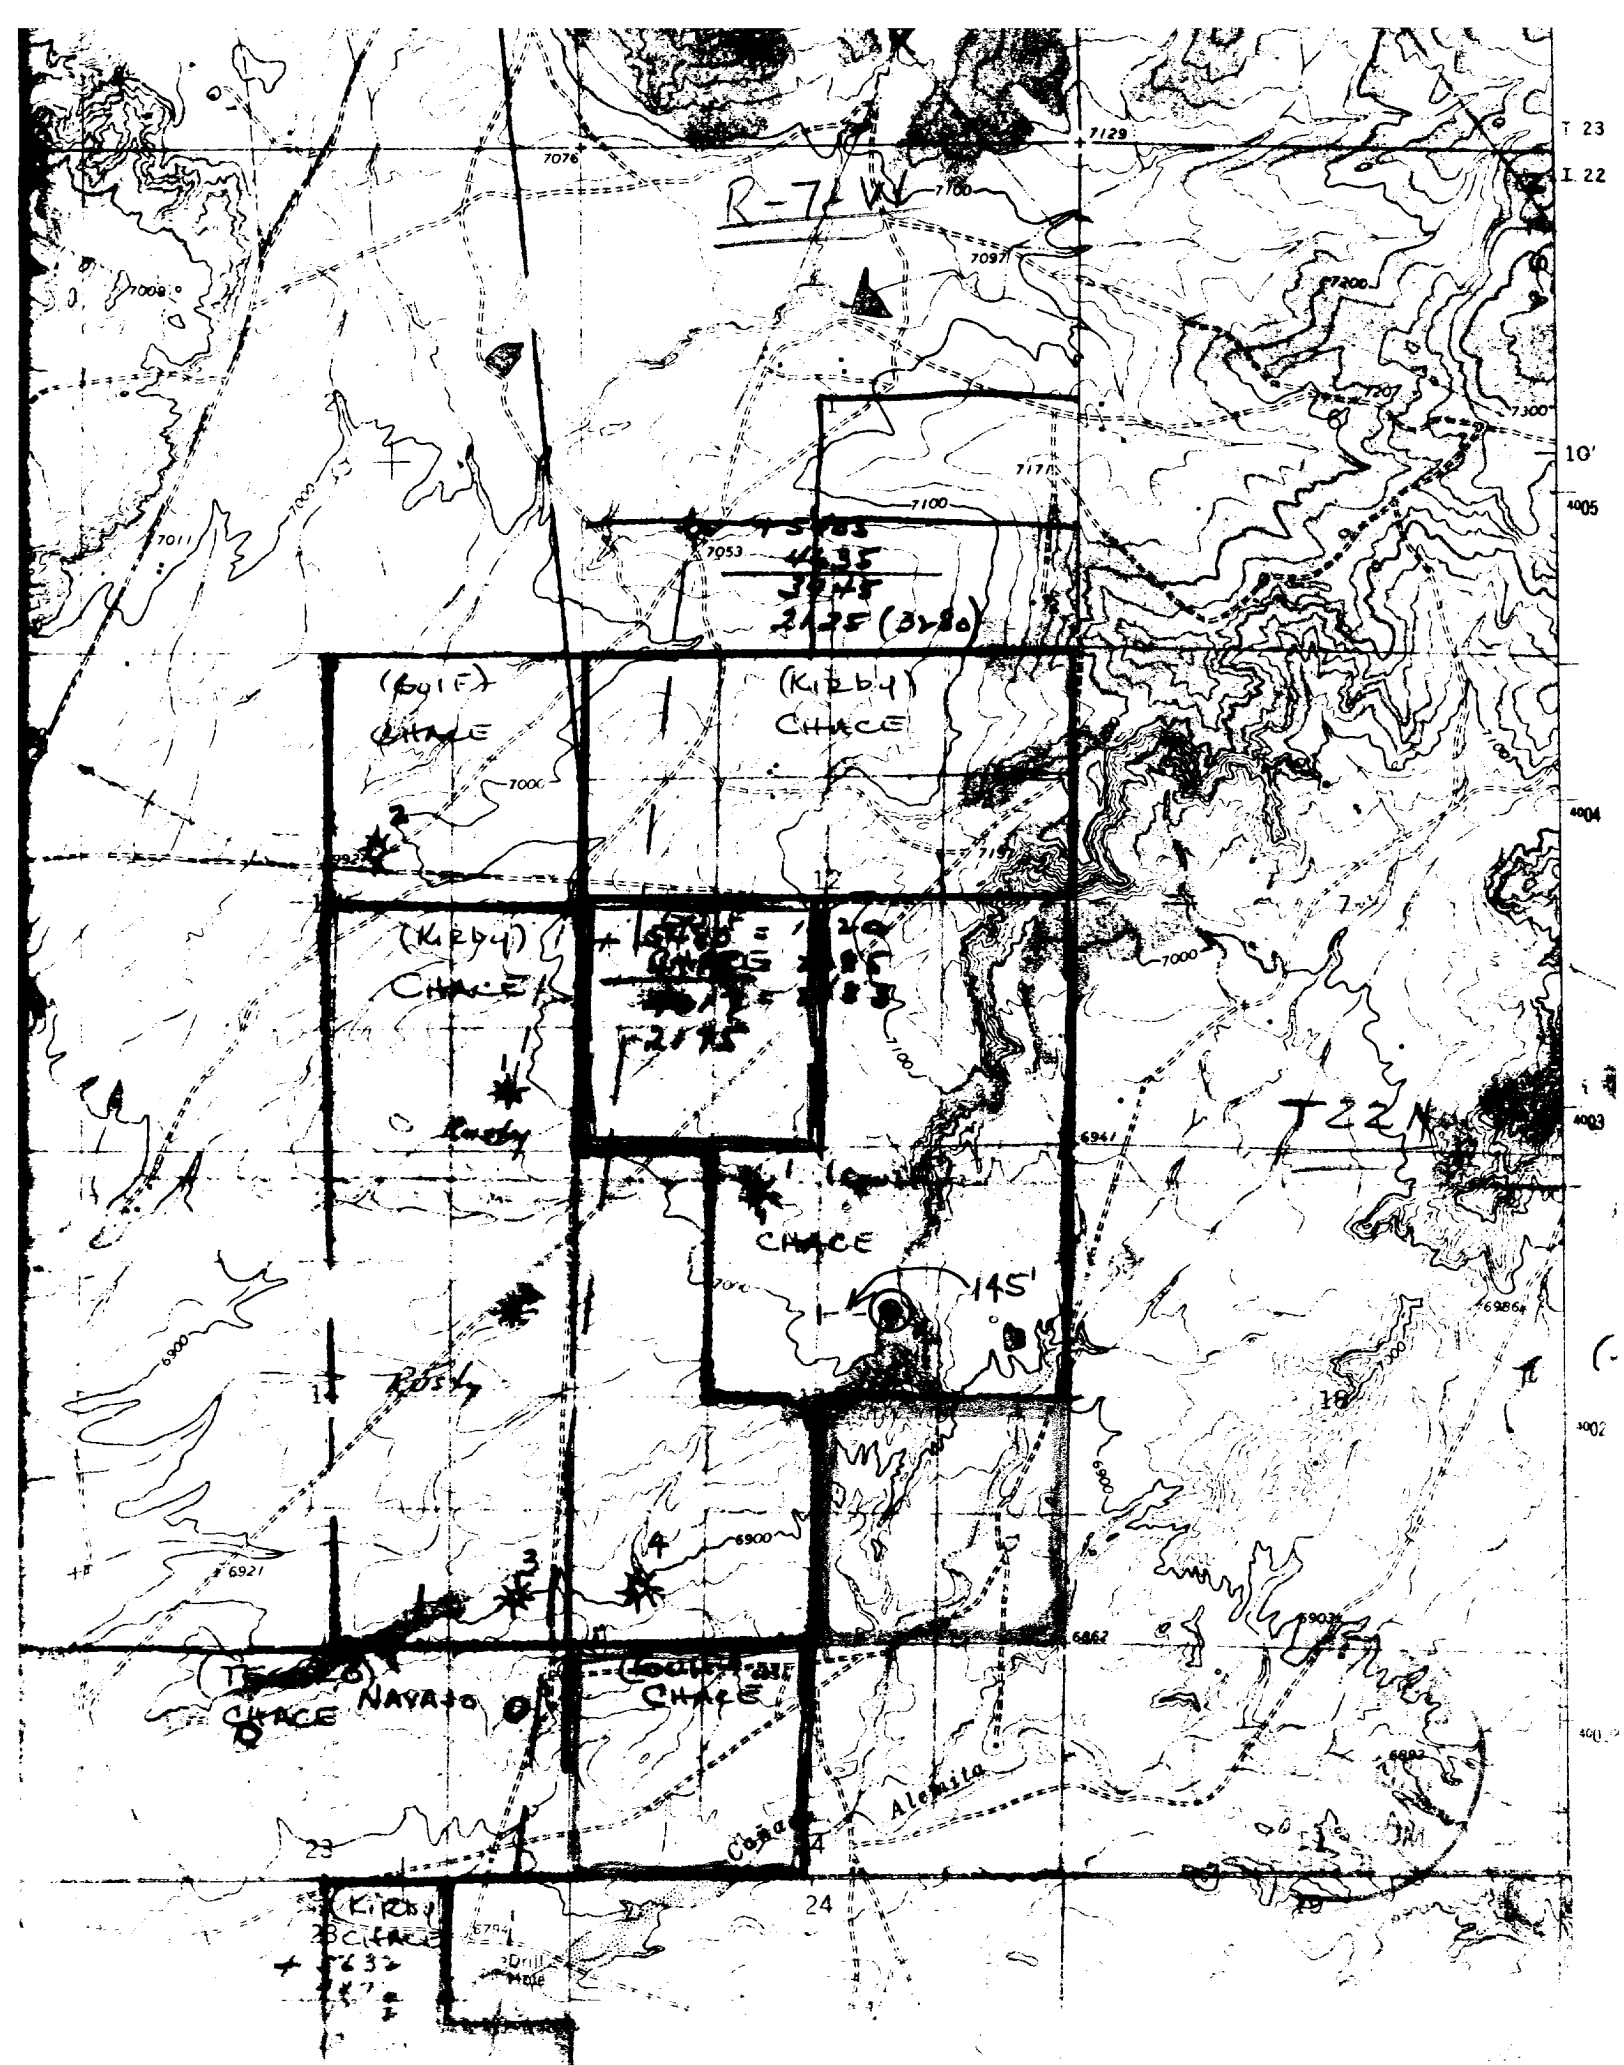

We would like to request permission for a non-standard location for a shallow gas well in the N.E. 1/4 of section 13, T22N-R7W, Garfield County, Texas. This request is made due to the topography of the area. A standard location would have been on the side of a cliff, and to move further east would have dropped the location into some very badlands, necessitating many miles of road building. Also along the top of the cliff was what the archaeologist called lithic-granite scatterings, and requested that we move west some 50 feet. The well as located lies 1650' from the north line and 1950' from the east line, or 145' west of a standard location. This does not effect any offset operator as the nearest quarter section line is a Chase lease. This lease was acquired as a farm-out from Cliff Oil. Enclosed are location, topography and lease plots showing the details of this request. Cliff Oil Company owns the S.E. 1/4 of section 13, T22N-R7W and this location is 800' from this quarter section line. Please advise us if you need any additional data.

Sincerely,

Royce McGarry

**NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT**

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section.

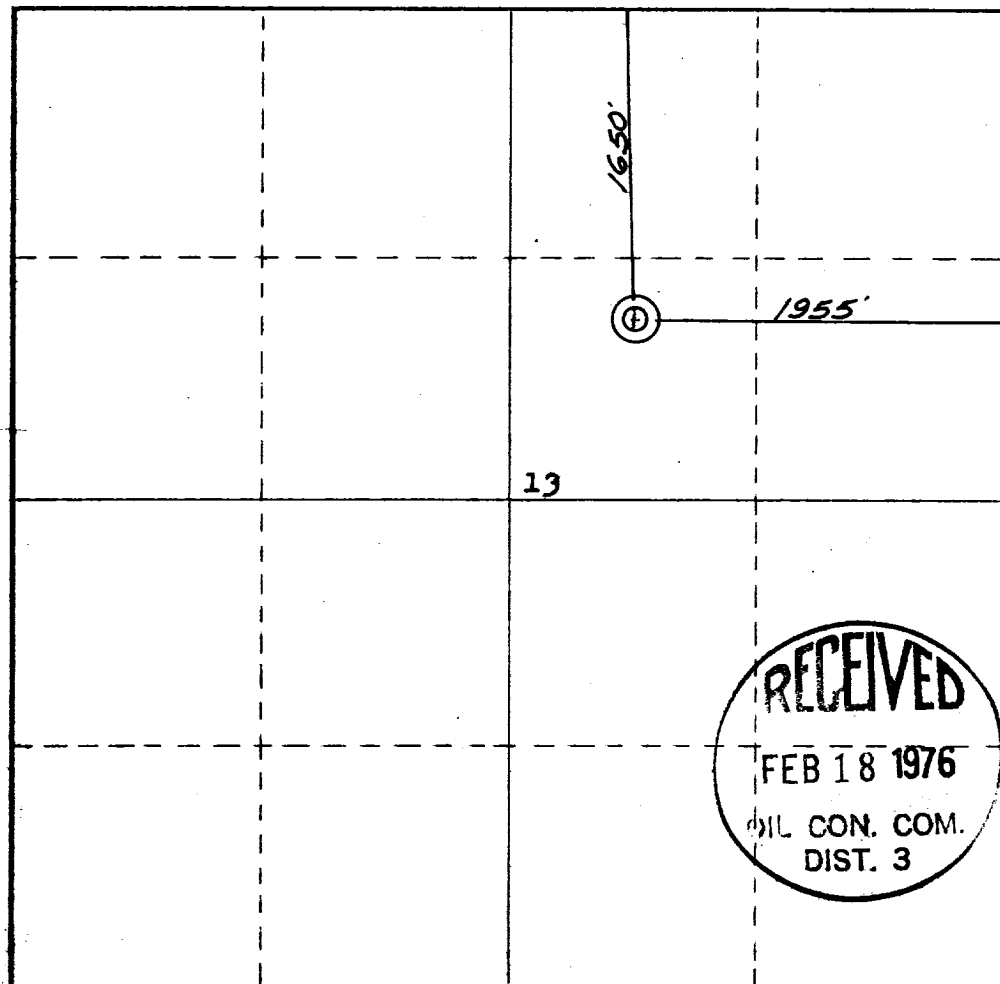

Operator CHACE OIL COMPANY			Lease GULF FEDERAL		Well No. 3
Unit Letter G	Section 13	Township 22 NORTH	Range 7 WEST	County SANDOVAL	
Actual Footage Location of Well: 1650 feet from the NORTH line and 1955 feet from the EAST line					
Ground Level Elev. 7020	Producing Formation		Pool		Dedicated Acreage: Acres

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
