In re: Archeological Clearance for  
Proposed Drilling Locations  
Section 27-19N-3W  
Sandoval County, New Mexico

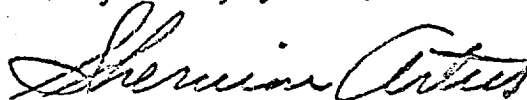

Dear Mr. Broilo:

Petro-Lewis Corporation plans to drill four wells in the captioned section. We have been informed by the BLM that we must have archeological clearance before a drilling permit can be issued. We would appreciate your handling the archeological clearance on these locations if possible. The locations have been staked and access roads, drilling pad layout and facilities pad will be marked with stakes September 23, 1976.

Should you require additional information or if you have any questions or comments on this project, please contact me at the above address.

We would like to have the onsite inspection in approximately three weeks. Your assistance in this matter will be appreciated.

Very truly yours,

  
Sherwin Artus
