Re: Houston Oil & Minerals
Booth Drought No. 2
Section 1, T15N, R4W
Sandoval County, New Mexico

Mr. Al Kendrick
N.M. Oil Conservation Commission
1000 Rio Brazos Rd.
Aztec, New Mexico 87410

Dear Mr. Kendrick:

Attached is the Application to Drill for Houston Oil and Minerals Booth Drought No. 2 located on the Ignacio Chavez Grant, Sandoval County, N.M. A previous application was submitted on Booth Drought Well No. 1 located in Section 6, T15N, R3W however it was decided to move the location to Section 1, T15N, R4W, thus we are naming the well the Booth Drought Well No. 2. The Booth Drought No. 1 will not be canceled at this time.

As before, we have also made separate application to the U.S.G.S. in Durango, Colorado since the surface now falls under the jurisdiction of the Bureau of Land Management with future minerals rights reserved to the Federal Government.

Yours very truly,

J. Arnold Snell
