RE: Jicarilla 428-5
Pictured Cliff Test Well

Gentlemen:

On the enclosed plat attached to the Intent to Drill, please note the west edge of Township 23N, Range 4W is truncated leaving the Northwest quarter of Section 31 containing only 118.89 acres, or less than the normal acreage attributed to a Pictured Cliff test well. We hereby request administrative approval of this drillsite. You will note we are 1050 feet from the closest subdivision boundary.

By copy of this letter we are requesting Continental Oil Company to issue a letter waiver to the Oil Conservation Commission stating they have no objection to the non-standard drillsite.

We won all other direct and diagonal acreage to the drillsite.

Yours truly,

MERRION & BAYLESS
