17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any  
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent  
to this work.)\*

We proposed to abandon this well because of parted casing at 2190 ft. KB as follows:

1. No casing will be recovered, estimated top of cement approximately 600 ft.
2. Will place cement plug inside pipe from 2280 to 1750 ft. to cover Pictured Cliffs, Fruitland, Kirtland, and Ojo Alamo formations.
3. Will place 30 ft. surface plug

We intend to drill a replacement well Jicarilla 430 Well No. 1-X on the same drill pad and therefore do not intend to reclaim the surface area at this time.
