WATER SHUT-OFF ☐FRACTURE TREATMENT ☐SHOOTING OR ACIDIZING ☐(Other) ☐REPAIRING WELL ☐ALTERING CASING ☐ABANDONMENTS ☐(Note: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)*

31A has had all drilling muds and fluids bailed from hole. Pits have been cleaned,
staked and wired, and left to dry. Well appears to be an excellent fresh water well,
and we plan to complete it as a water well as herewith specified:

1. Cement (plug) from 450' to total depth 620'.
2. 50' of gravel filter base - 400' to 450'.
3. Run slotted 5-1/2" casing liner from surface to total depth.
4. Plan to test well for water analysis and capacity.
5. Will thereafter cap and wait final decision of BLM, Albuquerque.

18. I hereby certify that the foregoing is true and correct

SIGNED

E. C. Phillips
