Dear Mr. Phillips:

Names are required for all oil or gas wells in New Mexico.

I have selected the names captioned above for simplicity.

We need form C-102 in duplicate for each of these wells. The location need not be certified by the surveyor since you have filed a certified location.

Approval of the well's non-standard location for each of these must be obtained prior to the production of petroleum products.

If there are questions, please contact us.

Yours very truly,
