Dugan Production Corp. is requesting approval to construct a low pressure, natural gas pipeline to connect the subject well for gas sales. We are planning to install approximately 3000' of 2-7/8" steel pipe (approximately 2100' will be installed on the surface due to badland topography and extreme soil conditions.) All construction will be within the boundaries of lease #NM-25821 (see attached map.) Construction will take approximately 4 days. All facilities including the gas measurement meter will be located on the existing well location.
