Re: \$5,000 One-Well Bonds
No.s 491E536-A & 491E518-6

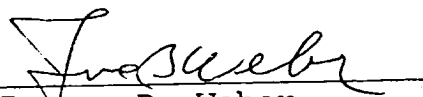

Dear Ms. Teschendorf:

In connection with your letter of August 2, 1978 concerning the above two bonds, please be advised that we have requested Bond No. 491E536-A be cancelled (see attached letter of request) inasmuch as the Brent #2 well is not to be drilled.

We have requested this date a change of rider for Bond No. 491E518-6; however, according the the staking plat the correct description should be "SW SE" (see attached plat) and not "SW SW" as your letter states. If you have any questions, please call on us.

Very truly yours,

HELTON ENGINEERING &
GEOLOGICAL SERVICES, INC.
