17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

5/21/90 We request an extension beyond June 1, 1990 of the evaluation period granted February 28, 1990. The well will remain shut in. The marked fluctuation of the price of oil has made it difficult to determine if placing the well on a pumpjack is economic. We placed a well in the Alamito Gallup (Sec31, T23N R7W) on a pumpjack in late April. We need to evaluate the increase in production for a longer period to determine if placing this well on a pumpjack is economic.

THIS APPROVAL EXPIRES AUG 31 1990
