17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting up proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and points pertinent to this work.)

We intend to set a BP above Gallup perforations (4932-5150). We intend to find leak in casing and repair same with cement. Notification of cement job will be made to Minerals Management Service prior to commencement of same. Cement will be allowed to set up a minimum of 48 hours. We will then drill out cement, remove BP, acidize perfs if necessary, and place well in operation.

Verbal approval for the above work was obtained from Richard Bell with Minerals Management Service on September 9, 1982. BCO intends to commence work today, September 9, 1982.

18. I hereby certify that the foregoing is true and correct
