Any necessary special instructions for use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or may be obtained from, the local Federal office. See instructions on items 22 and 24, and 33, below regarding separate reports for separate formations. If not filed prior to the time this summary record is submitted, copies of all currently available logs (drillers', geologic, etc.), formation and core analysis, all types electric, etc.), formation and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments and pressure tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments should be listed on this form, see item 33.
