San Luis Federal #5 J-21-18N-3W

Dear Noel;

Our records indicate that you began injecting water into the above-referenced wells in December, 1980. We have not received completion reports or sundry notices showing dates of commencement of injection.

You are hereby directed to file necessary reports or contact this office within ten days. Failure to comply will result in the San Luis lease being shut in and possible legal action.

Yours truly,

Charles Gholson
Deputy Inspector
