San Luis Federal #5 J-21-18N-3W

Gentlemen:

Our records indicate that Torreón Oil Co. began injecting water into the above referenced wells in December of 1980. We have not received Completion Reports or Sundry Notices showing dates of commencement of injection.

I contacted Mr. Noel Reynolds regarding this matter on November 9, 1981. Mr. Reynolds came to this office and assured us that Sundry Notices had been filed with the U.S.G.S. in Farmington. A check with this office revealed that they had not been filed.

These wells are apparently being injected into in violation of Rule 705-A.

You are hereby directed to file necessary reports or contact this office within (15) fifteen days. Failure to comply with this directive will result in the San Luis Lease being shut in and possible legal action.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Charles Gholson".
