Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This Sundry Notice is to request a temporary abandonment for a period of one year on this well. This well is in accordance with Federal Regulation 30 CFR 221.34 as there are no perforations, consequently no bridge plug or cement plug set 50 feet above the top of any perforations is required, and the well is closed at the surface. This well is offset by several wells, but all wells within 3.2 miles are shut in waiting on the construction of a gas collection system in the area. The gas collection system is under construction, but due to the remote location of these wells and the difficulty of working during the winter and spring, completion is not expected until summer of 1982.

18. I hereby certify that the foregoing is true and correct

SIGNED

Paul C. Ellison
