Re: Federal 25-22-7 #1

Name change from Benson Mineral Group to Integrated Energy has already been processed from form 9-331, submitted to Minerals Management.

C-104 approval for this well, (with transporter) can be made only when the completion report is sent to us by MMS and the deviation record is in. Also, at this time section V of the C-104 must be completed.

If you have any questions, please call.

Thank you,  
Luanne

Sent back C104, because of  
the above, was showing  
transporter.
