ABANDONMENT* ☐

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

We respectfully request a "Long-Term Shut-In". The well is currently completed in the Dakota sand and not economic to produce under current market conditions.

At the present time we are conducting a feasibility study to obtain a permit and recompleting the well in a zone behind casing. Log analysis indicated considerable gas reserves may be recovered by recompletion.
