13. Describe Proposed or completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion Oil & Gas had proposed to complete the research and economic evaluation for returning this well to production by August 1, 2000. Due to the complexity of the evaluation that included a possible infill drilling well, we have not completed our evaluation. We request an extension to December 1, 2000 to complete the proposal for the well work.
