(Other) Request to temporarily SI well ☒

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. IS PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Gary-Williams Oil Producer, Inc. respectfully requests approval to temporarily shut in the Ceja Pelon 35, #13 well for an indefinite time period. Current depressed oil prices make this marginal well uneconomical to produce.

The Ceja Pelon 35, #13 well was shut in during February and March, 1986. The average production for January, 1986, was 4.1 BOPD.

Approval for temporary shut in status for this well would prevent premature abandonment of significant recoverable hydrocarbon reserves.
