(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was formerly named the 1-34 Myra, however according to the lease regulations the name should be the No. 1 Dames. We therefore request this name change.

Drilled to 350 feet with 6 1/2 inch hole. Set 4.5 inch casing to total depth with 45 sacks of regular cement circulated to surface. Plan to perforate and acidize Dames sand from 345' to 450'. Work planned for latter part of December, 1965.

ENCLOSURES - 2 Well Logs.

5 Copies U.S.G.S.

1 Copy, Panley Oil Co.

1 Copy-Roose

1 File Copy.
