17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Gary-Williams Oil Producer, Inc. respectfully requests approval to temporarily shut in the San Isidro 15, #4 well for an indefinite time period. Current depressed oil prices make this marginal well uneconomical to produce.

The San Isidro 15, #4 well was shut in during March, 1986. Average production for February, 1986, was 1.0 BOPD.

Approval for temporary shut in status for this well would prevent premature abandonment of significant recoverable hydrocarbon reserves.
