14. API NO.
15. ELEVATIONS (SHOW DF, KDB, AND WD)  
7438.00 GL

NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Subsequent to our report (Form 9-331, Sundry Notices and Reports on Wells) dated August 19, 1983 indicating a single zone completion in the Pictured Cliffs formation, it appears that after venting and working with the Mesa Verde formation that it is now sufficiently water-free to permit normal multipoint volumetric testing. Therefore, this report is intended as a request for permission for the multiple completion of the Pictured Cliff and Mesa Verde sandstone formations.
