(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Due to the possibility of encountering hydrocarbons while drilling with air, Champlin is making an additional pit (approximately 30' x 40') per the attached map. This will keep any possible hydrocarbons out of the reserve pit and away from the drilling rig and will reduce the possibility of a fire.
