(Other) Request to temporarily SI well XX

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Gary-Williams Oil Producer, Inc. respectfully requests approval to temporarily shut in the Tayler 29, #9 well for an indefinite time period. Current depressed oil prices make this marginal well uneconomical to produce.

This request is being done under the policy of suspension of production requirements for stripper oil wells on Federal and Indian lands.

The Tayler 29, #9 produces from the Gallup formation. Production averaged about 1 BOPD.

Due to the fact that there are remaining reserves from the Gallup and significant undeveloped hydrocarbond potential, a temporary shut in period is requested. Approval for temporary shut in status for this well would prevent premature abandonment of significant recoverable hydrocarbon reserves.
