17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Please be advised, our records show no reason for this well to have been placed on OSI status. It has produced steadily since we took over operations in 1986. The longest period of SI status was from 6/94 to 8/94 due to motor repairs on the pumping unit. This well has been producing each month since 9/94.
