(NOTE: Report results of multiple completion on Well
(Completion or Recombination Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and source points pertinent to this work.)

We are asking for an approval of extension of Report 3160-4 beyond the 30 days of regulation from the completion date of April 07, 1985 on the above referenced well. This will extend the period of regulation from May. 6, 1985 to June 5, 1985.

We are currently conducting additional work on the subject well in this field in order to achieve a better stabilization of production rate.
