Re: State 32-22-6 #14

Dear Mr. Griffis:

I am returning the C-104 on the above well. When you have a designated transporter of the gas, please submit at that time, and if all the other paperwork is in, it will then be approved.

I have not received the report of when you ran the 4 1/2" casing and cementing. Also, a new plat dedicating the acreage to 160, for the undesignated Gallup gas, must be sent in, and if you do not have 160 acres, you must request approval for the non-standard proration unit.

Date of first production is not shown on your completion report. I must also have this date.

If you have any questions, please call.

Sincerely,

A handwritten signature in cursive script that reads "Luanne Hisel".

Luanne Hisel
