(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is desired to forgo the setting of 30 ft. of surface casing and use of a preventer as per Application For Permit to Drill now pending for this well. Due to the shallow depth of the proposed well and proximity to previously drilled and produced wells, it is highly unlikely a high pressure gas zone will be encountered. Verbal approval of this request has been given by Mr. John Keller.

18. I hereby certify that the foregoing is true and correct
