13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Pride Energy Company is attempting to put the San Isidro #11-14 well back on production. The well needs the pump pulled and possibly the tubing stripped of paraffin which will cost approximately \$5,000. The company is waiting to do this until oil prices firm up from their current low level. Pride Energy Company is making a diligent effort to put this well, which is capable of production in paying quantities, back into production.

CONDITIONS OF APPROVAL BY BLM included period to March 1, 1999, to get the well back into production or the date of lease expiration will revert back to September 10, 1998.
